Rosary Miracle at Hiroshima - August 6, 1945

Safe in the Midst of the Hiroshima Nuclear Blast! by Dr. Stephen A. Rinehart & Dr. Richard F. Hubbell, Feb 2000.

There was a home eight blocks (about 1 kilometer) from where the A-Bomb went off in Hiroshima Japan. This home had a church attached to it which was completely destroyed, but the home survived, and so did the eight German Jesuit missionaries who prayed the rosary in that house faithfully every day. These men were missionaries to the Japanese people, they were non-military, but because Germany and Japan were allies during WWII they were permitted to live and minister within Japan during the war. Not only did they all survive with (at most) relatively minor injuries, but they all lived well past that awful day with no radiation sickness, no loss of hearing, or any other visible long-term defects or maladies. Naturally, they were interviewed numerous times (Fr. Schiffer, a survivor, said over 200 times) by scientists and health care people about their remarkable experience and they say "we believe that we survived because we were living the message of Fatima. **We lived and prayed the rosary daily in that home.**" Of course, the secular scientists are speechless and incredulous at this explanation - and they are sure there is some "real" explanation - but at the same time over 55 years later the scientists are still absolutely bamboozled when it comes to finding a plausible scenario to explain the missionary's unique escape from the hellish power of that bomb.
